GAFFNEY'S LAUGHREY WELL

ments From Sistersville Southwest-The Advance in Credit Balances - New Work Starting in Monroe County-Mayfield Well Producing 350 Barrels's Day.

A very important well drilled in in the Sistersville oil field. Thursday evening, was that of P. H. Gaffney & Co., on the Granville Laughery farm, a short distance south. This Well is important for the reason that it was drillno good, as wells had been drilled on two sides of it before and full of them dry. The well is a good producer and menced to flow and is now making a nice lot of oil, although it has not been tested. It is supposed that there is an the old Sistersville field and the line wells in line with the one brought in. There is no telling how far this pool extends. There is a gas well on the Michaels farm, only a couple of miles from the well on the Laughery farm, and it is on a direct line with the well of Gafiney & Go. There may yet be a nice livile pool opened up in that section of Tyler county.

There has been a change of two cents in the price of market balances and as a consequence the operators; and producers are feeling jubilant, and are of the opinion that now the market will go up to a point that will make it profitable to drill in unfeated territory. It the price of oil would go up ten or fifteen cents more there will by a great deal of work started in new territory, that the operators have been holding and paying rentals on for the simple reason that the price has been too low to take a chance on drillings. It.

There is a great deal obview work starting in the vicinity of the recent strike of the Fisher Oil Company, on the Price farm, over at Benwood, in Monroe county, Oilo, The Fisher company has the rigs up for several new

wells and will commence drilling as soon as the wells can be tigged up. The Henry Oil Company has started several new rigs in that vicinity and Shay & McMullen are opening up some new work

The Bowser well on the head of Point Pleasant creek, on the edge of the Tyler and Weizel county lines, which was drilled in last week and reported to be a big gasser, is now flowing a great deal of salt water. This well, which is about four miles from the old Polecat, is acting much the same as that famous well did, and it is believed that when it has been completed and put to pumping it will turn out to be a good producer.

### A MYSTERIOUS CASE. Did Albert Frantz Kill His Sweetl e irt

Bessle Little I DAYTON, O., Sept. 11.-The case of Albert Frantz, charged with the betrayal and murder of Bessie Little is developing into one of the most mysterious crimes on record. Chief of Police Ferrell has ascertained where and when Frantz bought the revolver that was used, and now he is hunting the weapon Frantz threw into Stillwater with Bessie Little's body, so as to identify it as the one Frantz bought. Diver Graham, of Cincinnati, has been at work here to-day searching the bottom of the river where Frantz, on his own confession, threw the body from the bridge. Hundreds of people lined the banks of the river to-day and the excitement increases daily. Meantime Frantz sticks to his original story that Miss Little shot herself while they were out riding, and in-his fright he threw her body into the river. He confesses that he threw the revolver in the river and says it did not belong to him. If the weapon is found and identified by Ferrel's man, then Frantz will have a complete chain of registence usualist him.

Frantz was arraigned to-day, plead not guilty and his case was continued with-out bail.

Who Tried to Tap the Vault of a San Francisco Bank Well Kndwu. SAN FRANCISCO, Sept. 11.—John J. McCarthy, who was arrested Wednesday evening on the tharge of being the leader in the attempt to rob the First National bank of Los Angeles is a familiar character among police circles. As a cafe cracker the prisoner has an almost national reputation, but his attempt to cruck the treasury vault of the bank by means of a tunnel, is believed to be his first effort along these lines. McCarthy admiss that he was in Los Angeles at the time of the attempted cafe robbery, but strenuously denies that he had anything to do with the crime. McCarthy is about thirty five years of age. He is powerfully built, and in the palmy days of the old Cailfornia Athletic club, gave many exhibitions in the circles gave many years of his life as a sailor. He claims to have been employed on the steamers plying between Panama and South American ports, and also on vessels in European waters.

### DEFICIENCY IN REVENUES.

Customs Receipts Still Falling Fault of Wilson-Gorman Bill. WASHINGTON, D. C., Sept. 11,—It is low the beginning of the third year of the Wilson-Gorman tariff law, and well into the fourth annual period of the Cleve-land administration. Despite the promises of free trade advocates that the new law would in time produce revenue sufficient to meet the requirements of the govern-ment, there has been a deficiency by the day and by the month which promises to continue until a Republican victory re-places the control of the nation in the hands of those who administered it so succussfully for thirty years. It is important that the constantly recurring shortage in revenues should not be lost sight of in discussions on finance or in the dema-gogic appeals of Bryan to the prejudices of those suffering from conditions brought about by members of Bryan's political

Then the dam will be opened again and a swift outpour of available cash will follow to pay the interest on bonds and other demand liabilities. Voters will have a striking object lesson in the augmenting deficiencies immediately preceding the election.

INTER-STATE GAMES

To-day's games-Wheeling at Toledo, Washington at Fort Wayne, New Castle at Saginaw, Youngstown at Jackson.

Special Dispatch to the Intelligencer. \_TOLEDO, Ohio, Sept. 11.—The Nail-ers gave the home team a hard run for their money in the opening game of the series and it looked for a moment in the ninth as if the Wheelingites would bunch their hits and run away with the game. As it was, several bleacher faces suffered from palpitation of the heart. Kane was in the box for the visitors and pitched a very erratic game. At times he was a puzzle and then again was wild as a free sliverite, hitting batters indiscriminately, but giving few bases on balls,

Keenan had good control of the ball and although he gave six bases, they were passed out to the heavy batters. The work of Umpire Hubbard was very yellow, both teams suffering from the poor work.

Wheelings first run was made in the third, when Gallagher lifted the ball over the right field fence for four bases. Not until the seventh did they score again and then by a base to Violet, singles by Robinson and Kane, Shaw's sacrifice and Haller's two-bagger, two runs were scored. In the ninth, Violet hit safely, Shaw

In the ninth, Vlolet bit safely, Shaw and Robinson followed with singles sind Haller again hit the ball over the fence for two bases and Whaley retired the side with a long fly to center. For Toledo in the second, Cooke singled, Kihm was hit by a pitched ball, a wild pitch advanced both, and an outfield put out and a sacrifice scored two runs. Arthur came in in the third on a gift of first a steal and Beck's two bagger. Score:

MARIETTA, Ohlo,Sept. 11.-The Marietta team was defeated this morning at Parkersburg, by a score of 6 to 5, in at Parkersburg, by a score of 6 to 5, in an interesting game. In the afternoon game Catcher Donahue hurt his thumb in the first Inning and could play no longer. There was no one on the team who could hold the left-handed Blough and he was taken out of the box at the end of the first and nearly every man on the Marietta team took a turn in the box and turned the game into a farce, not attempting to defeat the Parkersburg team, after the first. The crippled condition of the Marietta team made it possible for Parkersburg to win its games this week, but with all it still stands, Marietta seven and Parkersburg six.

Sometimes it seems to weary woman that she must certainly give up. The simplest and easiest work becomes an

able task. Lassitude almost overcomes her. Nervousness and pain harass her and life seems hardly worth the living.

That her sufferings are due solely to her own fault seldom occurs to her, but often it is so. Health, strength and vigorous vitality are hers if she will but ask and reach for them.

Dr. Pierce's Favorite Prescription was made for her. Dr. Pierce's Golden Medical Discours are seed to be a se made for her. Dr. Pierce's Golden Medical Discovery was made for her. The former is for the ills distinctly feminine, the other for her lygneral system. Together they supply a scientific and successful course of treatment. The "Favorite Prescription" restores healthy, regular action to the organs distinctly feminine. It forces out all impurities, strengthens the tissues, allays irritating inflammation. The "Golden Medical Discovery" makes appetite, helps digestion, promotes assimilation, fills out the hollows in checks and neck with good solid flesh and brings back the gladsome glow of girlhood. Best of all, with these remedies there is no need of detested "examinations" and "local treatment" so abhorrent to every modest woman.

your medicines and am now perfectly well."
